EDUCATION

Birmingham City University **Birmingham, UK**
BSc (Hons) Cyber Security 2024 – 2027

- Average Grade: 74%
- Key Modules: Cyber Security Fundamentals, Network Fundamentals, Cyber Security Operations, Software Security, System Security Attacks & Defences, Applied Cryptography, Applied Cyber Forensics, Applied AI for Cyber Security

Sungkyunkwan University (SKKU) **South Korea**
Diploma in Artificial Intelligence Jun 2026 – Jul 2026

- Completed a short-term diploma in Artificial Intelligence, building applied AI knowledge alongside core Cyber Security studies.

WORK EXPERIENCE

Keystone Digital Strategy Ltd **London, UK**
Cyber Security & Technology Consultant Jun 2026 – Present

- Conducted security reviews of client websites, web applications and cloud environments, identifying vulnerabilities and recommending remediation measures.
- Supported secure-by-design practices across client projects, including access management, authentication, configuration hardening and data protection.
- Assessed cyber security risks and translated technical findings into clear recommendations for non-technical stakeholders.
- Supported vulnerability remediation and security testing across client-facing systems.
- Embedded cyber security considerations into wider technology consulting and system delivery projects.

BCU Student Computing Association **Birmingham, UK**
Event Coordinator (Full-Time) May 2026 – Present

- Led initiatives to foster innovation, collaboration, and learning within the community.
- Organized workshops, talks, and hackathons to enhance technical and professional skills.
- Created an inclusive environment for students to share ideas and explore new technologies.

Dr Sheikh Surgery **Birmingham, UK**

- Managing front-of-house reception duties, including patient check-in, appointment scheduling, and handling confidential patient information.
- Communicating with patients, clinicians, and administrative staff to ensure smooth day-to-day surgery operations.

EXTRACURRICULAR ACTIVITIES

UniHack **Birmingham, UK**
Hackathon Participant 2024 – Present

- Participated in multiple UniHack hackathons, collaborating in teams to design and build technical solutions under time constraints.
- Applied problem-solving and technical skills gained from Cyber Security studies to hackathon challenges.

Community Charity Work **Birmingham, UK**
Volunteer 5+ Years

- Long-standing volunteer contributor to local charitable causes, supporting community initiatives over several years.

SKILLS & INTERESTS

Technical Skills: Python, Wireshark, Nmap, Autopsy, FTK Imager, Registry Explorer, Networking, Risk Management

Certifications: CompTIA Security+ (In Progress)

Interests: Cyber Security Research, Emerging Technology, Continuous Learning
